Assignment 2

Objective

Through this assignment I have learned how to display polygon by `drawRect` method and the relation between `Controller`, `Model` and `View`. I also learned how to use Gesture in IOS7.

Practice

Part1:

By clicking the Increase and Decreat button the label of number of polygon would be changed.

Part2:

By click the buttons the polygon would be display the same number of edge of the number of the lable.

External

Draw the title in the center of the UIView. Set the font, size.

Swipe up and Swipe down the polygon will be changed with page-flips `Animations.`

`Swipe right the UIView will be` rotated 90 degrees.
